SHAKE AS YOU ARE

Lime-Rock è mix perfetto tra ispirazione naturale e tecnologia industriale.

La sua essenza restituisce tutto il sapore della Limestone, roccia sedimentaria dal carattere forte e deciso, sempre leggermente diversa ad ogni singolo e irripetibile spacco della pietra. Il risultato è nuova materia dalla vibrante energia dinamica: forza che si irradia dalla struttura verso la superficie, dove esprime tutta la complessità dei movimenti e delle stratificazioni, per poi affiorare in esili venature irregolari che riflettono la luce.

Realizzato in gres porcellanato a tutto spessore, disponibile in 4 colori e nel nuovo formato rettangolare 75x150 cm, indicato sia per la posa a pavimento che per la posa a campo pieno sulle pareti da rivestimento; a completamento della gamma anche i formati 75x75cm e 37,5x75 cm, mosaici a spina di pesce e la finitura outdoor nel formato 37,5x75 cm per garantire continuità fra interno ed esterno.

Lime-Rock, il gusto che non c'era nel design contemporaneo, frutto di un intenso 'shake' di ricerca fra grafica e struttura e fra industria e pietra naturale.

Lime-Rock is a perfect combination of natural inspiration and industrial technology.

Its essence offers all the sensations of Limestone, a sedimentary rock with a strong, decisive and unique character as it is slightly different every time the stone is split. The result is a new material with a dynamic vibrant energy: a force that radiates out from the structure to its surface where it captures all the complexity of the stone's different layers and facets as well as the beauty with which its subtle irregular veining reflects the light.

Created in full-body porcelain stoneware and available in 4 colours and a new 75x150 cm rectangular format, this tile is ideal for both floors and walls. The range is completed by 75x75cm and 37.5x75 cm formats, herring-bone mosaic tiles and 37.5x75 cm format outdoor finishes to guarantee continuity between indoor and outdoor environments.

Lime-Rock is the distinctive style that was missing in contemporary design, but now exists thanks to a 'shake up' of research ranging from graphics and structure to industry and natural stone.
